VOL. XXVI. NO. 95 GAINESVILLE, FLORIDA, FRIDAY, MAY 28, 1909 TEN CENTS A WEEK

PRESIDENT TAFT WILL SIGN THE TARIFF BILL

This is Opinion Held by Well-Informed Politicians in the National Capital.

WASHINGTON, May 27.—There is no longer a sembiance of doubt in the minds of any well-informed politician here in Washington but that President Taft will sign the Payne-Aldrich bill. Look where you will, interview prominent men from morning until night, and it is impossible to find a statesman of prominence who will admit that he maintains the belief the President will veto the measure.

President Taft's statement while in the South that he believed the tariff bill would be one that he could sign was so construed by many as to indicate the satisfaction of the President with the pending bill, which has been denounced in every section of the country, by ninety-five per cent of the newspapers of the nation, and by every branch of the business world except the trusts and protected manufacturers. The latter, alone, appear to be perfectly satisfied. They have made no criticisms whatever.

It must be understood, however, in justice to the President, that he is a position where he can exercise wide unbounded discretion as to whether he shall sign, refuse to sign, or veto the tariff bill after it is passed by Congress. He was elected as the head of the party of protection. Because of being a Republican President, he really has no choice. He must sign the bill, or at least not do anything that will prevent its passage even if it does give the trusts a little heavier prize package than heretofore. In doing so he is merely carrying out the idea of the protection principle.

When the President signs the bill which promises to further increase the cost of living, he is only performing the ceremony for which the protected interests wished him to be elected the chief executive. He will be doing exactly what the big manufacturers understood he would do when they made large contributions to the Republican campaign fund. The protected interests rallied to the aid of the Republican candidate because they expected, and had a right to expect, that if the party of protection was victorious, Aldrich would look out for their profits in framing the new tariff measure, and that President Taft would also do his duty (sign the Aldrich bill) as the head of the party of protection. The trusts were therefore most liberal in their campaign contributions.

If President Taft would sign a tariff bill placing sugar, lumber, oil and oil products, iron ore and steel, and woolen and cotton manufactures on the free list, the Republican party would in all probability go to pieces. The protected interests would no longer be given monopolies on the American markets and be free to extort fabulous profits from the American cousumer. Therefore they would no longer be willing to contribute to the campaign fund such colossal sums as they are now contributing, and would not in all probability adopt the desperate tactics they now use to compel their employes to vote the Republican ticket.

The tariff system as it is now manipulated makes it a business proposition for the trusts to be in politics. They donate a certain amount of money to the Republican campaign fund, with the expectation that the high tariff wall will be kept propped up, and they will be able to get their original investment returned through profits accruing from their monopoly on the markets of the consumer.

Therefore when Mr. Taft signs the Aldrich-Payne bill, even as vicious as it is, he is not deserving of a more severe epithet than "an extreme protectionist." It is more the principle, and less the man, which is to be blamed for any advance in the cost of living which may follow the new tariff law.

President Taft's acts and associations since becoming President, however, are such that he cannot hope to escape being classified with the reactionaries. "A Tariff Reformer," in the June number of The American Magazine, measures the new President as follows:

"What will Mr. Taft do? I wish that the question did not insist on popping up its head. I want to think Mr. Taft has no more use for Mr. Cannon than I have, and that he rejoices as I did that Mr. Aldrich is to retire to private life. I should like to believe that he had no more sympathy with the group of free and near-free Senators than he had with the Aldrich-Elkins-Penrose combination. That he would rather see an insurgent than a stand-patter. But it does not look so just now in Washington. The two most frequent callers at the White House are Messrs. Cannon and Aldrich, and the faithful are taking their cue from them. The free men and revolters are not called as yet. It looks very much as if the day of reaction had come—that its headquarters were at the Presidential mansion.

"What will Mr Taft do? Will he

DIRECTOR NORTH TENDERS HIS RESIGNATION

PRESIDENT ACCEPTS AND APPOINTS DURAND.

Resignation Was the Outcome of a Disagreement Between Director North and Secretary Nagel.

WASHINGTON, May 27.—S. N. D. North, director of the census, has tendered his resignation to President Taft and it was accepted yesterday. His resignation is a direct result of his recent controversy with Secretary of Commerce and Labor Nagel.

The following statement in connection with the case was given out at the White House:

"Director North tendered his resignation as director of the census. It was accepted and the name of Mr. E. Dana Durand, now deputy commissioner of corporations, has been sent into the Senate to succeed him. Mr. North's resignation was based on the ground that on account of conditions existing and likely to continue, his administration of the census office would not probably be successful.

It has been supposed up to within the last few days that the controversy between Secretary Nagel and Director North had been amicably adjusted. The friction between the two continued, however, and at last Secretary Nagel put the matter squarely up to President Taft, saying that either he or Mr. North would have to leave the service, as existing conditions between them were impossible.

Director North held to the belief that the census bureau was an independent institution and that he was responsible only to the President. A congressional enactment put the Census Bureau under the Department of Commerce and Labor, however, and Secretary Nagel felt that in spite of the great powers conferred by Congress upon the Director, that official should be subordinate to the cabinet officer in charge of the department. It was because of this friction that Director North finally was forced to step out.

MANY CONFERENCES BUT NO SETTLEMENT REACHED

No Trains Yet Running on Georgia Railroad---People Take Inventory of Food Supply.

ATLANTA, May 27.—The tension in the Georgia Railroad strike has increased with every hour's delay in settling the race question involved. This was the attitude in which negotiations for terminating the strike were conducted here yesterday. United States mails held up since the beginning of the week, a dozen counties facing dmoralization of business and the race issue brought continually into unwholesome prominence, were the factors which spurred the negotiations through hours of discussion. Although no statements were made as to the ground covered, it was learned that a very quick settlement is looked for, provided any agreement can be reached.

It was learned late yesterday afternoon that a feeling of nervousness exists on both sides in the controversy of the gravity of further delay. This was taken to indicate the possible approach of an agreement despite a report that Mr. Scott has practically refused to consider any basis of settlement that does not permit recognition of the seniority of certain negro firemen. Mr. Scott, however, has not refused outright to enter into arbitration.

That Mr. Scott urged Governor Smith to issue a law and order proclamation in the communities bordering the railroad was reported late last night. Governor Smith maintained his previously announced attitude that until there has appeared some definite danger that property will be destroyed or lives jeopardized no such proclamation should be issued.

Governor Smith and General Manager Scott of the Georgia Railroad had a long conference in the afternoon at which was discussed the feasibility of submitting the trouble to a board made up of men conversant with local conditions along the railroad. United States Commissioner of Labor Neill called on Governor Smith.

Would "Condemn" Food Supply.

Various towns in the strike district took inventory yesterday of their visible supply food. Madison reported at least 15 days of plenty in prospect. Washington reported a shortage in yeast and prices rising.

At Lithonia, Mayor Brand said: "If supplies should run short and it becomes necessary, I shall simply condemn the train load of perishable goods now on the siding at Lithonia and tell the citizens to help themselves."

There are 11 cars of provisions at Lithonia and ice has been supplied to maintain the perishable portion of their contents in good condition.

In addition to the visible supplies, the towns have their visible means of transportation, headed by a traction engine traveling nearly a mile and a half per hour, automobiles with daring drivers and dangerous roads, mule teams with darkey drivers and cracking whips, altogether a combination which has furnished a bright

Both Branches of Legislature Hold Busy Sessions

TALLAHASSEE, May 27.—Despite the long grind of Tuesday night, the Senate yesterday settled down to real hard work and pushed forty-four bills through to third reading and killed five.

The most important action of the day was the unsuccessful effort to override the veto of the Governor of the Johnson bill prohibiting fire insurance companies from setting up lack of title as a defense against payment of a policy.

Senator Flournoy delivered a forceful address in favor of going over the head of the Governor, but the vote stood 18 to 10 against, lacking the necessary two-thirds.

Discussion of the Broome bill relating to the liability of railroad companies having relief departments to their employes, was resumed in the morning and the bill finally went on to third reading. The most forceful address against this bill was delivered by Senator Buckman.

Senate Bill No. 102, by Mr. McCreary, for relief of W. A. Snowden of Micanopy, was advanced to third reading.

Flournoy's Coeducation Bill.

Senator Flournoy has introduced a bill providing for the coeducation of persons of the same race in all the schools, colleges and universities of this State as follows:

"Be it enacted by the Legislature of the state of Florida:

"Section 1. From and after the passage of this act all schools, colleges and universities of this State shall be open to students of both sexes of the same race.

"Sec. 2. All laws and parts of laws in conflict with the provisions of this act be and the same are hereby repealed.

"Sec. 3. This act shall take effect immediately upon its passage and approval by the Governor, or upon its becoming a law without his approval."

Opposition to this bill is expected to materialize in plenty. Many hold that the present system of separating the sexes in the State educational institutions is much the better and more practical plan. Better results are obtained, and then a separation of the sexes seems to lend to the individual institution distinction and dignity that places it high above the standard of the coeducational schools. The bill will doubtless not be passed at this session.

THE HOUSE.

Practically all of yesterday in the House was given up to the consideration of the general revenue bill in committee of the whole. Innumerable amendments were offered but nearly all were killed. An effort was made to reduce the license tax on express companies a little, but the effort was unsuccessful.

The Jacksonville charter bill was taken up at the night session and discussed at length. It was made a special order for today.

Young Man of Raleigh Met Death in Saw Mill

RALEIGH, Fla., May 27.—Rayford Sapp, aged 26 years, son of Mr. and Mrs. B. E. Sapp of this vicinity, was killed at Roosevelt, Lousisana, on the 17th of May, and his body was received here on the 23rd.

About five weeks ago, young Sapp had obtained employment at Roosevelt in a large lumber mill as fireman, and on the 17th of May in some mysterious way his right foot was caught in a small pulley and his entire limb was torn off near the hip, and in this condition he lingered for four hours, when death intervened.

His people here were at once notified by wire, and his body was expressed to Raleigh, arriving on the 23rd.

Rayford Sapp was an exemplary young man, a skillful mechanic, and at the time of the unfortunate occurrence his young wife, with a five-months-old sweet little boy, were preparing to join him in his new home.

His wife, nee Miss Vernon, of Carabelle, Fla., and Mrs. Vernon, with a large number of relatives and friends, met the casket on arrival and rendered every assistance to the stricken family.

To Mr. and Mrs. B. E. Sapp the news fell with crushing effect. The entire community extend deepest sympathy to the bereaved.

The body was laid away at Jonesville, Alachua county.

Pensacola Liquor Man Arrested for Refilling Bottles

PENSACOLA, May 27.—N. Goldring, one of the most prominent and wealthy of the wholesale liquor dealers here, has been arrested on an indictment returned by the grand jury charging refilling of bottles, which are labelled "Bottled in Bond," and which state the contents to be 100 proof liquor. The indictment returned by the jury relates that on March 4, 1909, bottles were found in possession of Mr. Goldring, or in one of his places of business, which contained liquor of only 92 proof, and that this is a violation of the pure food act. Goldring immediately upon arrest, gave bond in the sum of $1,000, and his case was set for trial at the next term of the court. The arrest is the result of a trip made to Pensacola several months ago of two inspectors, who paid a visit to all saloons, and it was stated at the time that fully one-half of the saloons in the city were found with liquor in bottles which had been refilled. It is expected therefore that others will be indicted.

ECLIPSE OF SUN AND MOON NEAR AT HAND

THE MOON WILL BE HIDDEN ON JUNE THIRD.

This Will Be Followed by An Eclipse of the Sun on Thursday, June Seventeenth.

Astronomers are greatly interested in the coming total eclipse of the moon, which occurs on the evening of Thursday, June 3rd. The phenomena may be observed all over the continent if the sky is clear.

In this section the rise of the moon will be almost normal and the people may watch the shadow of the earth gradually steal over the lunar body. But further in the continent, probably on the other side of the Mississippi, the inhabitants will first see an odd-looking disc of a faint reddish color rise from the east.

When the moon rises here only a narrow portion of it will be observed. Gradually it will enter deeper and deeper into the earth's shadow until the moon gives no light and is only barely perceptible.

Not a Black Eclipse.

This year the moon does not enter into the heart of the earth's shadow, so there will not be a black eclipse. The moon, however, will be in the shadow of the earth for over an hour and practically the only light from the heavens will be that of the stars.

The reason why the moon will be invisible is the influence of the earth's atmosphere, which bends the sun's rays at the edge of illuminated hemispheres of our planet and throws on the moon a faint glow, generally of a red copper hue. It results from the absorption in our atmosphere of the green, blue and violet rays in the sun's light while the red rays pass through it. It is much the same as the sunset glow, though infinitely more faint.

As the phenomenon of the eclipse develops, the children will be able to see for themselves the truth of the statement they learned from their geographies.

Eclipse of the Sun.

An eclipse of the sun will be witnessed a fortnight later, on Thursday, June 17th, shortly before sunset. The only effect that it will have is to send the chickens to roost an hour or two earlier.

The lunar eclipse is precisely the same as that which saved the lives of Columbus and his party in the isle of Jamaica in the year 1504. The natives refused them food. Columbus, knowing that an eclipse was due, told them that God was angry because of their inhospitality, and would take away the light of the moon. The moment that the natives saw the light going, they rushed to their storehouses and brought out their choicest viands, supplicating the "white angels" to bring back their moon. Columbus handed it back in about an hour.

The earliest account of an eclipse was discovered in the tomb of a Chinese emperor. The date has been fixed by chronologists as January 29, 1136 B. C.

LORIMER ELECTED TO SENATE FROM ILLINOIS

SPRINGFIELD, Ill., May 27.—Congressman William Lorimer of Chicago is the junior United States Senator from Illinois. He was elected on the ninety-fifth ballot in the assembly yesterday by a coalition of fifty-three Democrats and fifty-five Republican votes, to fill the vacancy from Illinois, which has existed in the Senate since the term of Albert J. Hopkins, Republican primary candidate for re-election, expired on March 4.

With votes to spare, the representatives from the Sixth district of Illinois broke the Senatorial deadlock which has existed in the Forty-sixth general assembly of Illinois since last January.

side to the strike and many a holiday prank for rural communities.

Offers to Move Mails.

This good nature of the country along the silent railroad was a reassuring feature during the negotiations in Atlanta, for one of the gravest aspects of the strike has been the uncompromising sympathy which has backed it all along the line.

An offer of aid in moving the mails was sent to Washington yesterday by Vice-President Ball, who is conducting the strike, and who wired the Postmaster-General as follows:

"It is currently reported that an effort is being made to charge the Brotherhood of Locomotive Firemen and Engineers with responsibility for interference with the United States mails on the Georgia Railroad. So far from this being true, we stand prepared to aid you in getting the mails through. I should be glad to confer with any representative of the Postoffice Department designated by you and to aid you in accomplishing this result."

The hand car which is carrying mail out of Atlanta went nearly forty miles to Union Point.

Six strike breakers who left the employment of the Georgia Railroad Saturday complained to the Atlanta Police Commissioner charging that they had been brought here by misrepresentations and had been practically prisoners for several days in a hotel, finally getting into communication with strikers by notes dropped from the windows. A detective agency which had had charge of the squad of strike breakers answered the charges, declaring them untrue.

Nothing Doing in Augusta.

AUGUSTA, May 27.—The strike situation in Augusta remained quiet yesterday. The local lodge of the Firemen's Union met last night and took in a large number of new members.

There have been no gatherings in the vicinity of the railroad yards nor demonstrations of any sort. Local attention has turned to Atlanta, since the center of action was transferred to that point by Mr. Scott's departure.

WIND STORM PROVES SEVERE WEST OF CITY

PEACH ORCHARDS SUFFERED BY FALLEN FRUIT.

Telephone Lines Also Damaged, But Again Placed in Thorough Working Order.

The rain and wind storm of Wednesday proved disastrous to the peach growers located west of Gainesville, as in the section where the groves are located a large number of peaches were blown to the ground before maturity.

The Gainesville orchard, located only a few miles west of Gainesville, suffered a heavy loss in this manner, as it was noticed that the ground was pretty well covered with fruit that was yet unmatured. This same condition also exists at Arno, Tioga and the other peach sections close to Newberry.

The telephone lines of the East Florida Company were also placed out of business temporarily, but they at once put a force of men at work and have again gotten them in order.

From nearly every section they have had some rain, but it has been in streaks and not general, and the cantaloupe growers feel that unless they receive rain within a short while the vines will burn completely up.

The rain close around Gainesville was also in streaks. It did not rain at all two miles west of town, and a large part of the cantaloupes are planted from two to six miles west of the city.

DANDRUFF

Cured in Two Weeks or Money Back.

In fact W. M. Johnson, the druggist, has a wonderfully efficient hair restorer called Parisian Sage which costs only 50 cents a bottle that is guaranteed to cure dandruff in two weeks or money back.

Parisian Sage is the discovery of one of the world's greatest scientists, who knowing the value of sage as a scalp cleaner and hair restorer, combined it with other ingredients in proper proportions, and the result is the most wonderful hair tonic in the world.

Parisian Sage is a most pleasant, daintily perfumed hair dressing, and besides curing dandruff, your druggist will return your money if it fails to stop falling hair or itching of the scalp.

It will make hair grow, and women who desire soft, beautiful and luxuriant hair can have it in two weeks by using this famous, quick-acting preparation. W. M. Johnson sells it under a guarantee.

Don't let any druggist tell you he has something just as good as Parisian Sage because there isn't any hair restorer so good. The girl with the auburn hair is on every package, and you get a much larger bottle of Parisian Sage for your 50 cents than you get of the ordinary.

"I have used various hair tonics and can say that Parisian Sage gave the hair a good, healthy, silky appearance, rids the head of dandruff, and keeps the scalp cool and clean. I recommend Parisian Sage as being fine for the hair and far ahead of any other tonic I ever used."—Miss Emma Foess, 520 Adam street, Owosso, Mich., December 9, 1908.

HUMPHREYS KILLS HIMSELF.

Was Accused of Participation in Express Robbery.

AUGUSTA, Ga., May 27.—George P. Humphreys, white, baggagemaster on the Southern Railway, who was on the train on the night of the recent sensational express robbery, cut his throat on the streets here last night and died shortly after midnight. Pinkertons searched his home Sunday. In a note to his wife he denied participation in the robbery and said that he would kill himself to save her and their two babies the disgrace of his arrest. When the woman saw the note she alarmed the man's brother. The brother went in search of Humphreys and under an electric light a square ahead saw him slash his throat with a razor.

There will be as much headache in whiskey by any other name.

Some people waste four-fifths of their time upon things which do not concern them.

It is nearly time for an amendment of a change of date for the inauguration of the Panama canal.

The debate between the line and staff of the navy is so hot that the armor plate is getting blisters.

In considering the baseball standing it should be remembered that this has been in all respects a remarkably backward season.

It is far better to help a man when he is falling than to wait until he is down. It does not cost him so much in effort, courage or anxiety to regain his place in the world.

A Baltimore man has erected a statue to Adam. We are glad to say that the father of mankind is not represented as standing in a heroic attitude with his right hand thrust between the first and second buttons of his Prince Albert.

A city must have people and the way to get them is to advertise. The Municipal Journal puts it thus: "It has become a more or less universal opinion in most sections of the country that any city that does not make some active effort at direct advertisement is dead and sure to fall behind the times."

The Progress and Prosperity Edition of The Times-Union was issued Wednesday, and, as is always the case with any undertaking by Florida's great daily, was up-to-date in every particular. The entire forty pages were filled with interesting reading, a great portion of it being devoted to the wonderful growth of the city since the big fire in 1901.

Doubtless there is something fascinating about the idea of communicating with Mars, but it is doubtful if even the most enthusiastic dreamer really believes in its possibility. As an academic proposition it is entertaining and people may indulge in all kinds of speculation over it, but the obstacles in the way are too great to lift it into the realm of practicability.

The Times-Union offers this timely advice: "If your boy expects to celebrate the Glorious Fourth advise him to go fishing. Better to drown than be blown up, because when he goes down you may recover him in good shape, but after he has gone up he may return rather dilapidated. The only wise plan is to padlock the boy to the dining-table for twenty-four hours and let others celebrate."

Porto Rico does not seem to appreciate what this country has done for it. We are not surprised at this. Although Porto Rico and Cuba groaned under the yoke of Spain and could not have obtained freedom without the aid which the United States gave them, yet the sympathy of both islands as of most Spanish-American countries is with Spain. Their political and other ideals are Spanish, so also is their race and language. Because of this they have little in common with this country.

THERE IS BUT ONE SENSIBLE THING TO DO.

The Pensacola Journal has repeatedly referred to the duty of the present Legislature to reapportion the representation of that body, and in its issue of the 25th says:

"Here is the way the case stands: The constitution of Florida says there shall be no more than one hundred members of the Legislature in House and Senate combined. It permits a newly created county, however, to increase this number by one representative until the next apportionment.

"The same instrument provided that a new apportionment should be made in 1897 and every ten years thereafter. The constitution was ignored and no reapportionment was made in 1897.

"In 1905 the county of St. Lucie was created. This made the total number of representatives in the Legislature of 1907 one hundred and one. This Legislature should have provided for a reapportionment, as directed by the constitution. It did not do so. Therefore, either equitably or technically can the Legislature of 1909 be regarded as a constitutional body?

"The last named Legislature has, so far, refused to reapportion representation. On top of this it has added another county and threatens to create one or two more and thus illegally increase to a still greater extent the number of representatives. Will any man with a level head say it has the right to do this?

"The Journal admits that it is impossible to reapportion representation on any sort of a rational basis under present constitutional limitations; but a constitution must either be obeyed or else amended. The whole matter is in a muddle. The basic law of Florida is being violated.

"There is no way to rectify the trouble except by calling a convention to revise this law. If the Legislature neglects to do this it may cause the State and the people of the State no end of confusion and distress."

STATE PRESS COMMENT.

The Bartow Courier-Informant says: "Inspired by the recent splendid observance of 'Mother's Day' all over the State, some of the newspapers are advocating a 'Father's Day.' We are for it every time. It is seldom we old daddies, and those who have gone before us, have had a boost; so let us have one now while the parental feeling is at high tide, or we may not get it at all."

The Brooksville Southern Argus says: "We are opposed to mob law as it leads ultimately to unlimited lawlessness, but we are equally opposed to the non-enforcement of law which ends in anarchy and the subversion of society and all government. The pardoning board acting as a review court, pardoning criminals, on the strength of petitions, and arbitrarily setting aside the honest verdicts of juries and the just penalties of courts at the dictates of sentiment, sympathy or influence, does more violence to law and constituted authority than the foundations of good government can stand. It is the inevitable law, criminals must be punished for the protection of society. If the courts will not, or the pardoning board will not permit them, then the people en masse will do so, not always wisely or righteously, but surely."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

CURRENT COMMENT.

The New York Tribune (Rep.) says: "The Senate is by tradition a highly conservative body. It clings to what is, and usually prefers to err on the side of self-restraint and inaction. Yet the plitical sagacity of the Finance Committee and its followers is discredited by the fact that their work finds no approval from the public opinion which the newspapers reflect. Can such work be expected to appeal hereafter to the voters? Is the Senate right in judging public sentiment, while the newspapers of both parties are all wrong? These are questions which the makers of the Senate measure would do well to consider."

The Norfolk Virginian-Pilot (Dem.) says: "We agree heartily with President Taft that long continued monopoly of power breeds extravagance and corruption in a political party. The Republican organization, with a short interregnum, has controlled every department of the Federal government from 1861 till now—nearly half a century. The necessity for a respectable and formidable opposition is painfully needed and the Solid South offers just the necleus needed for the recruiting at the North and West of an organization strong enough to compel the Republicans to be honest and careful in their administration of the public estate. To that end the President will have our best assistance."

George Meredith, the celebrated author and poet, who died the other day in England, never attained the popularity enjoyed by Thackery, Dickens, or George Eliot. While his productions appealed to the cultured few they were lacking in the style that meets the popular taste, and like Swinburne's poems they often struck a pessimistic note as to the hereafter.

How much is a man worth is usually answered in dollars and cents, but that gives no real idea of a man's value. A man is worth just so much as he makes himself by his character and by the value of the things in which he concerns himself.

Emerson says: "If a man can write a better book, preach a better sermon, or make a better mousetrap than his neighbor, though he build his house in the woods, the world will make a beaten pathway to his door."

An act changing the name of the University of Florida.

An act changing the name of the Colored Normal School.

An act changing the name of the Florida Female College.

MRS. LEDBETTER'S PARTY.

Tendered to Few Friends at Home on Thursday Evening.

Mrs. S. A. Ledbetter tendered a party to a number of young friends at her home on East Court street Tuesday evening which was highly enjoyed by those present.

The decorations were very pretty, the parlor being in ferns, palms, roses and elder blossoms, while the dining-room was in a color scheme of pink and white, a large cut glass bowl being filled with LaFrance roses and elder flowers as a center-piece and the tables decorated to match.

Japanese lanterns were placed at convenient places about the building and delicious strawberry punch was served in the large hall, the refreshments consisting of an ice course, pink and white cream, and individual cakes, iced with pink and white.

Assisting in the dining-room were Misses Margaret Morrow and Cleo Johnston.

Mrs. Dickson H. Tharin assisted in entertaining.

A leading feature was "Description Games," of five minutes time, in which Miss Lena Colclough was awarded first prize, a lovely box of Huyler's. The "booby" fell to Miss Elizabeth Morrow.

Mr. Coles and Mr. Frank Hartsfield drew for their prize, the latter receiving it—also a box of candy. The "booby" was given to Mr. Terrell Barco.

To do justice to the modern writers of prose we publish the following description from one of the best:

"A dainty, demure young lady maiden, of uncertain age, swept into the room and slipped into a chair, armfully filling said article. She was dressed in a beautiful gown of crepe de sewing machine, trimmed with yards and yards of old Irish lace, raised in Germany. Her gown was profusely patterned with an elaborate piece of art, in the shape of a blue fern. This blue fern is caught with great difficulty in the Carribean Sea. She has her hair done up in the latest style, a la mode Parisian. This style was imported direct from China by the maiden's butler. She is a person anyone would be glad to cast their optical delusion."

All the descriptions are worthy of special mention, and it was with difficulty that the judges awarded the prizes.

Those present: Misses Lena Colclough, Dorian Ellis, Nannie Dickinson, Heloise Vidal, Mary Crawford, Margaret Morrow, Theo Hanon, Cleo Johnston, Elizabeth Morrow; Messrs. Lon Ledbetter, Lawrence Coles, Terrell Barco, Mylnor Beech, J. S. Bodiford, Jr., Cleve Shaver, A. B. Hartsfield and Frank Hartsfield.

Not One-tenth of Lard is Leaf Lard!

Here is what the leading lard packer says in a recent advertisement: "Leaf is the cream of lards. There is not enough of it to supply one-tenth of the people, and so it goes only to those who insist upon it."

Does it not stand to reason that if there is only enough of the proper fat produced to make pure leaf lard to supply one-tenth of the demand that the chances are nine to one against your getting pure lard? The only absolute protection against getting common hog fat when you buy lard is by buying *Cottolene* instead.

Cottolene is a pure vegetable product—made from cotton seed oil, refined by our exclusive process. It contains no hog fat and makes palatable, nourishing food which will agree with the most sensitive stomach.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

DO IT NOW

Gainesville People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Bright's Disease, gravel or some other serious form of kidney compaint.

If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay: Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they cure where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

Mrs. A. H. Leonard, 304 E. Liberty street, Gainesville, Fla., says: "I feel that from personal experience and that of several of my friends who have used Doan's Kidney Pills, I can endorse them very highly. Any person suffering from backache, headaches, chills, nervousness or any of the other symptoms arising from disordered kidneys, will make no mistake in giving Doan's Kidney Pills a trial. They always act quickly, cause no inconvenience and live up to the claim made for them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TEACHERS' SUMMER TRAINING SCHOOLS

TO BE CONDUCTED AT GAINESVILLE AND TALLAHASSEE.

Those Attending May Prepare for Any Grade of Certificate Authorized Under the Law.

The Teachers' Summer Training Schools, beginning on Monday, June 28th, 1909, and continuing for a term of six weeks, will be conducted at Gainesville and Tallahassee, for white teachers, and the Colored Normal School, at Tallahassee, for colored teachers.

These schools will be co-educational. Tuition will be free, and board can be had at a nominal figure.

The Legislature of 1909 did not make an appropriation for defraying the traveling expenses of teachers in attendance upon these schools, consequently, those who attend will have to pay their own transportation. However, an effort will be made by the State Superintendent of Public Instruction to secure a one-third fare for the return trip.

The instructors for the white schools, who are specialists in their respective lines, will be selected from among the principals of the Senior High Schools and the leading colleges and universities of the State.

The corps of instructors of the Colored Teachers' Summer Training School will be the best that can be had for the character of work to be done.

In addition to the professional training offered by each summer school, an opportunity will be given those in attendance to prepare for any grade of certificate authorized under the law. After the close of the term, beginning on Monday, August 9th, in Gainesville and Tallahasse, examinations will be given applicants for State, primary and special certificates.

For information concerning the school to be conducted at Gainesville, write Dr. A. A. Murphree, Principal, Tallahassee, Florida, or Major W. L. Floyd, Gainesville, Fla.

For information concerning the white school at Tallahassee, write Dr. Edward Conradi, Principal, Tallahassee, Florida.

For information concerning the colored school, write Prof. N. B. Young, Principal, Tallahassee, Florida.

THE NEWS FROM ARCHER.

Sunday School Picnic to Worthington Springs June 10th.

ARCHER, May 27.—Archer will have a Sunday school picnic at Worthington Springs on June 10th. Morriston, Montbrook, Williston and Meredith are all invited to go with us. Come one, come all, and bring your baskets.

C. Sharpey and daughter of Rosewood were shopping here yesterday.

Mrs. J. H. Butler and two interesting little boys of Hernando are visiting Mrs. Butler's daughter, Mrs. G. R. Leynes, at their beautiful home in South Archer.

Mrs. A .K. Wilson and children of Fort Pierce are the guests of her brother, Ed Stewart.

Miss Zella Harvey of Williston has been the guest of her cousin, Miss Pauline Curl, for a few days. Miss Pauline left Monday morning for an extended visit to her relatives in Indiana.

J. B. Dale, the efficient foreman of the Maddox Foundry and Machine Co., was in Gainesville yesterday on business.

Dr. Leslie Fisher of North Carolina, who has been visiting relatives at Otter Creek for the past two weeks, was in our city yesterday. He expects to locate here immediately and no doubt will have a good practice, as he comes well recommended.

Mrs. W. L. Jackson visited Gainesville yesterday.

Mrs. Kramer of Waldo, wife of our popular S. A. L. conductor, has been here on a visit to her husband and Mrs. Thomas.

Miss Reeves of High Springs spent a few days last week very pleasantly as the guest of Mr. and Mrs. McNair.

Miss Mary Frei and Miss Lillian Reid, two of Archer's charming young ladies, visited Gainesville yesterday.

Sim Blitch of Montbrook was in town Sunday.

Mrs. Winecoff and son, Fleming, left Sunday morning for their home in Atlanta after a very pleasant visit to Mrs. W. L. Jackson and her mother, Mrs. Marion Smith.

Mrs. Morgan of Meredith was in town yesterday.

C. W. Bauknight, one of our prominent citizens, visited Gainesville yesterday.

Fred Frei, who has been attending the University at Gainesville, returned home last evening to spend his vacation with his parents.

Mrs. H. Maddox visited her parents, Mr. and Mrs. W. J. Groves, at Morriston last evening. Mrs. Maddox wishes to state that she was the writer of the article which appeared in The Times-Union of the 16th., and The Gainesville Sun, relating to her automobile journey to Newberry.

Mr. and Mrs. R. T. Heagy returned Monday morning from Cedar Key. They have been visiting relatives at that place and were greatly benefited by their short outing.

ASTHMA AND HAY FEVER WILL VANISH.

Everybody knows that Hyomei cures catarrh. But there are many sufferers from asthma and hay fever who don't know that Hyomei will give them instant relief and if used regularly permanent cure.

But J. W. McCollum & Co. know so well what Hyomei will do that they guarantee it to cure catarrh, hay fever and asthma or money back.

Surely it's worth a trial on that basis and why people continue to choke and wheeze and spit and hawk and snuffle when a certain cure is at hand is beyond the comprehension of human intelligence.

When you breathe Hyomei deep into your lungs you breathe exactly the same pleasant antiseptic balmy air that you would breathe in the forests of pine and eucalyptus of inland Australia.

"Doctoring and remedies never helped my hay fever, till I used Hyomei. It gave me great relief, and has my unqualified endorsement."—Louis A. Grove, Flint, Mich.

Complete Hyomei outfit is only $1.00, and extra bottles 50 cents. A Hyomei outfit consists of a bottle of Hyomei, a hard rubber inhaler, medicine dropper and full instructions for use. Just breathe it in and get immediate relief.

If you desire a clear complexion take Foley's Orino Laxative for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in the spring in order to feel well. J. W. McCollum & Co.

PAINFUL ACCIDENT TO JOHN CANANAS

ARTERY AND VEIN CUT ON HIS RIGHT ARM THURSDAY.

Bottle Bursted While He Was Running One of the Machines at Bottling Works.

While engaged in bottling at the plant of the Gainesville Bottling Works on Thursday, John Cananas, a young Greek, suffered a severe cut which will disable him for the next several days.

As soon as the accident happened, Frank Hale telephoned Dr. E. Lartigue, who found it necessary to bandage the arm and remove the young man to his office, where he could have the use of his operating table to dress the wound and stop the flow of blood.

Both the artery and vein of the right arm were severed just below the elbow and it was the timely arrival of the physician which saved him the loss of much blood and future pain. Upon being removed to the physician's offices the wound was carefully dressed, and with proper care and attention he will soon be able to use his hand and arm as formerly.

While the wound is a very painful one, nothing serious is expected to result from the mishap, which is a very common occurrence around an extensive bottling plant, for the defective bottles are at all times being broken while they are being filled.

A Living Skeleton

Is the final condition of any child that has worms—if it lives. Think of having something in your stomach that eats all you take as nourishment. Nine-tenths of the babies have worms—maybe yours has. Be certain that it has not by giving it White's Cream Vermifuge—it expels all worms and is a tonic for the baby. Price 25 cents. Sold by W. M. Johnson.

Westminster Abbey's Poets' Corner.

Turning from King Henry's chapel, with its wealth of fancy's "fairy frost work," to the poets' corner in Westminster abbey, we are attracted by a spell mightier than that of carven stones in the presence of those "serene creators of immortal things" who have enriched our literature with gifts beyond all price. This "glorious company of paupers," as they have been termed, says a writer in Great Thoughts, have won a fame in the glow of which that of statesmen and warriors wanes and perishes, "touched to death by diviner eyes." Drawn together, as it were, by the spell of Chaucer, "our first warbler," what Spenser calls "black oblivion's rust" has failed to tarnish their golden record. We move entranced amid the memorials of Drayton, Ben Jonson, Spenser, Shakespeare, Beaumont, Milton, Gray, Addison and many more, including the impassioned peasant singer, Robert Burns, and the great Victorians, Robert Browning and Alfred Tennyson.—London Standard.

They had been trotting in double harness for seven long, weary months, and the honeymoon had bumped the bumps for fair.

"John," she said, as she dished out the breakfast food, "I need a little pin money this morning."

"What did you do with the $5 I gave you last week?" asked the man who had promised to love, honor and pay the freight.

"Oh, I don't remember," she replied. "It's so easy to spend $5 and have nothing to show for it."

"Right you are," sighed John. "That was the amount I paid the minister for marrying us."—Chicago News.

Many weak, nervous women have been restored to health by Foley's Kidney Remedy as it stimulates the kidneys so they will eliminate the waste matter from the blood. AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Ford, 1938 Lansdowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

A Dangerous Subject.

Professor Henry Drummond when a boy discovered that he could hypnotize people. At a birthday party a little girl declined to play the piano. Drummond happened to catch her eye and said, "Play." To his surprise she rose at once, went to the piano and played. At another time he hypnotized a boy and gave him a poker for a gun. "Now," said Drummond, "I'm a pheasant. Shoot me." The boy did so, and Drummond fell to keep up the illusion, whereupon the boy, seeing the "bird" move, was about to hit it over the head with the poker. The hypnotizer had just time to stop the magnetized sportsman.—Pearson's Weekly.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

TWO PIANOS AND A DIAMOND RING

Total Cash Value, $1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects thereto will be given each of those tieing.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for $100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for $25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

How and Where to Get Votes

Don't forget—in fact the youngsters won't let you—that we like to see the boys and girls at the New Baird. You're always sure the children are going either to learn or be amused at the films exhibited. Never by any possible chance need there be any fear that your boy or girl is going to see anything but what would pass your own strictest censorship. Every film is carefully examined before it is run and nothing that by the furthest stretch of the imagination could possibly be suggestive, is retained. Let the children come, we like to see and hear them.
